

Hazardous Waste Labeling

Hazardous waste must be labeled with the WASTE system. Once a tag is generated you have 270 days to use that container before EH&S will pick it up. You can also click the down arrow to send a message to EH&S that you are ready for that tag to be picked up.

Hazardous waste labeling protocol:

1. Google <http://safetyservices.ucdavis.edu/article/waste>
2. Click on the blue "**LOG IN THE WASTE**" on the left side of the page.
3. Select UC Davis under dropdown menu
4. Login with Kerberos ID
5. Click "**New Tag**" on right hand side
6. Select the hazard (Chemical, Mixed, Radioactive, Universal, Biological)
7. **OR** you can create a template if it is a reoccurring waste, then use the "View My Templates" tab.
8. **Print the label**

To find an already entered chemical click on **Menu** (three horizontal lines in the top left corner), then **Tags**
