D-Lab II: Design, Build, Test

Designing Accessible Spaces

This course will focus on designing and building disability-accessible spaces in the Engineering Student Design Center. Teams will work together to design, prototype, and test solutions to accessibility concerns. Collaborations with UCD partner communities will provide context and direction.

Project-based!

Hands-on experience!

Spring Quarter 2022

M/W, 10am-12pm

All disciplines welcome
