

Hi CEE Graduate Students,

Please see this week's announcements below:

Job Opportunities

EPS Peer Advisor Applications Open

Professional Development and New Courses

Spring Internship and Career Fair

Job Opportunities

EPS Peer Advisor Applications Open

The Internship and Career Center (ICC) is hiring Engineering and Physical Sciences' (EPS) Peer Advisors for the 2022-2023 academic year!

The EPS Peer Advisors provide general advising to students seeking internships and careers, and support the EPS team, under the direction of professional EPS staff. The EPS program area includes all majors in College of Engineering, Computer Science, Chemistry, Geology, Mathematics, Physics, and Statistics.

Professional Development and New Courses

Spring Internship and Career Fair

The Internship and Career Center is excited to promote our upcoming virtual internship and career fair with various opportunities for our Masters, PhDs, and Postdoctoral Scholars. The fair will take place on [Handshake](#). Registration is open!

[Spring Internship and Career Fair](#)

Date: Thursday, April 21, 2022

Time: 10:00 am to 4:00 pm PT

Location: Online via [Handshake](#)

We will have 50+ employers targeting graduate students and postdoctoral scholars.

To attend, students, postdocs, and alumni can register and then sign up for group or one-on-one sessions. If the employer does not have sessions yet, follow the employer on Handshake, enable notifications to receive updates on newly created sessions, and check back often.

Consider having your resume ready for this excellent networking opportunity! You can submit your resume, CV, and cover letter to the Internship and Career Center's [Document Review service](#) to receive feedback within 5 business days. Also, Master's students can schedule a [30-minute peer-advising appointment](#) with a graduate student.

For your convenience, we are linking a view-only Google spreadsheet highlighting the employers, the positions they are hiring for, and their targeted degree areas. This spreadsheet is not comprehensive; therefore, we encourage you to visit the fairs on Handshake or employers' websites to view all job opportunities. Click [here](#) to view the Google Sheet (UC Davis login required).

To learn more about the employers visit [Handshake](#).
