Job Opportunities

Career Opportunities at State Water Resources Control Board

Senior Water Resource Control Engineer (Sacramento Area)

Are you looking for an exciting and fulfilling career in water resource policy and management? If you enjoy using your engineering, communication, and leadership skills and would like to help state decision makers shape short- and long-term drought planning activities and reach consequential water rights decisions for the people and environment of California, then this may be the position for you! Apply today to join our team.

The State Water Resources Control Board's Division of Water Rights has an opening for a Senior Water Resource Control Engineer Specialist in the Drought Planning, Hearings and Special Projects Section of the Bay Delta and Hearings Branch. The position is located at 1001 I Street, right in the heart of downtown Sacramento next to light rail stations and other public transportation.

This position offers a unique and challenging opportunity to serve as a technical and multi-disciplinary team lead for the development and implementation of a wide variety of long-term drought planning and management initiatives, projects, and programs designed to improve the efficiency and efficacy of the State Water Board's Division of Water Rights' drought management actions; and to assist with complex and controversial water right hearings, adjudicatory proceedings, and permitting actions before the State Water Board.

Pay Range: \$10,311 – \$12,905 per month

Final filing date: July 1, 2022

Visit the link below to learn more about the position and how to apply.

Water Resource Control Engineer (Riverside Area)

Santa Ana Regional Water Board, part of the larger family of the California Environmental Protection Agency (Cal/EPA), is charged with protection of water quality and its beneficial uses in the densely

populated areas of Orange, Riverside, and San Bernardino counties, with our main office located in downtown Riverside, across the street from the historical Mission Inn.

We are looking for energetic and enthusiastic individuals to work in our Cannabis program, which includes inspection, monitoring, report preparation and GIS mapping of indoor and outdoor cannabis-growing sites along the southern California coastal regions.

Pay Range: \$5,849 – \$10,956 per month

Final filing date: July 6, 2022

Visit the link below to learn more about the position and how to apply.

Senior Engineering Geologist (Sacramento Area)

Help protect California's valuable water resources and make a difference during the drought by enforcing water rights. The State Water Resources Control Board's Division of Water Rights has an opening for a Senior Engineering Geologist (Supervisor) in the Permitting and Enforcement Branch. The position is located at 1001 I Street, Sacramento, right in the heart of downtown next to light rail stations and other public transportation. This position will oversee a team conducting inspections, investigations, and more!

Pay Range: \$10,311 – \$12,905 per month

Final filing date: July 11, 2022

Recruiting a Graduate Student Well-Being Coordinator

UC Davis Health Education and Promotion is currently recruiting a **Graduate Student Well-Being Coordinator** for the 2022 – 2023 academic year. This is a paid position (\$18.75/hour) that requires a commitment of three (3) quarters (Fall, Winter, and Spring). The Student Coordinator will work 10 hours per week (up to 4 hours of remote work) when classes are in session.

Apply on Handshake (Job #6606808)

Position Duties

Ultimately, the Graduate Student Well-Being Coordinator's responsibility is to plan, implement, and evaluate initiatives that improve graduate student well-being.

The Graduate Student Well-Being Coordinator will:

- Write weekly newsletters focused on health and well-being topics relevant to a diverse array of graduate students
- Build relationships with campus and community stakeholders through relevant campus organizations, coalitions, and workgroups
- Develop, implement, and evaluate messaging strategies and content (social marketing campaigns, handouts, social media, etc.) to address the concerns of all students, including students of color and students from traditionally underrepresented backgrounds
- Collect and analyze data to assist with program planning, implementation, and evaluation; this will include literature reviews, community assessments, surveys, and focus groups
- Schedule, promote and facilitate graduate student gatherings that appeal to diverse groups
- Complete quarterly and annual reports

Required skills include:

- Strong research abilities
- Strong project management skills
- Strong organization skills, with attention to detail
- Strong oral and written communication skills
- Ability to collaborate on projects
- Interest in improving graduate student health and well-being

Preferred

- Experience in well-being initiatives
- Graphic design skills
- Students who have demonstrated experience in campus involvement
- Public speaking experience
- Group facilitation skills

Medical Clearance Requirement - Since this position is located at a healthcare facility, all employees are required to participate in preventive medical and monitoring programs, which include a physical exam, hearing test, blood test and TB screening and may also include immunizations. These screenings are provided to meet Federal, State and University requirements.
