### Undergraduate Research Week is October 11-15, 2021

**Undergraduate Research Week** is a campus wide celebration of undergraduate research opportunities across **all disciplines and interest areas**. This year the Undergraduate Research Center is excited to continue this annual event through a hybrid of in-person and virtual formats! The URC coordinates this week-long event for all new and returning UC Davis students. During Undergraduate Research Week, various academic departments, campus partners, and student organizations and the Undergraduate Research Center host a variety of activities and workshops aimed at encouraging UC Davis undergraduate students to participate in undergraduate research.

The 2021 Undergraduate Research Week events will take place **Monday, October 11, 2021 through Friday, October 15, 2021**, featuring a collection of in-person events as well as asynchronous and live online events.

## UCD Tour Guides are Hiring!

Hello!

The UC Davis Tour Guides Are Hiring! This campus job is looking for highly committed and enthusiastic students from all backgrounds to apply and be a part of our Tour Guide family. We are reaching out to you to hopefully expand our reach and recruit students from your spaces in order to provide a diverse group of students that represent the university accurately. If you have a listserv, affiliated student groups, or student staff that you think could benefit and grow from this fulfilling job, please share the information and flyer below.

### ASCE/XE Virtual Career Fair

*Priority registration for the ASCE/XE Virtual Career Fair has begun! The fair will take place October 14th and 15th from 9:00 am to 2:00 pm.*

*Please use the following link to submit your contact information and correctly titled resume **before October 8th** to register with priority status:*

<https://forms.gle/xAFVBDa554cUNzHM6>

*You can still register for the fair after October 8th, but those with priority registration will have access to reserving company time slots first. Please see the attached Student Guide for more information.*

## ICC Employer Event and Career Fairs

Phillips 66 is coming to do an on-campus information session. They will be discussing internship opportunities for renewable energy in engineering.

It will be **Monday, October 11<sup>th</sup> at 6:30pm in South Hall room 114**, which has a max capacity of 49. I've attached a flyer and here is the event page in

Handshake: <https://ucdavis.joinhandshake.com/events/858087>.

Phillips 66 specifically wants to market the event to Chemical Engineering, Civil/Environmental Engineering, Electrical Engineering, Mechanical Engineering, and Materials Science/ Engineering.

## Upcoming Career Fairs

Additionally, the [Fall Internship and Career Fair](#) is coming up on Wednesday, October 13<sup>th</sup> from 10am-4pm. It will take place virtually in Handshake. Registration for students opens *Monday, October 4<sup>th</sup>*. Students must sign up for individual or group sessions with employers in order to connect with them. Sign-ups for employer sessions are first-come, first-serve, so register early and check back regularly as additional employers and sessions will be added. [Learn how to prepare for these fairs.](#)

## Aggie Job Fair for Student Workers

- Students! UC Davis departments are hiring for a wide range of student positions with competitive wages and flexible schedules for fall quarter and beyond. Apply NOW through the Handshake app for jobs that are currently posted, or attend the virtual Aggie Job Fair on October 7 hosted by the Internship and Career Center.

To attend the fair, just make sure that you have a Handshake account and your profile is updated: [icc.ucdavis.edu/find/resources/handshake](http://icc.ucdavis.edu/find/resources/handshake)

Learn more on the ICC job fair webpage: [icc.ucdavis.edu/services/fair](http://icc.ucdavis.edu/services/fair)

## Graduating Engineers Job Opportunity

Farrell Design Build is currently recruiting for an Engineer. They are looking to see if UC Davis has any students graduating that would be interested in working for them. They are a specialized design-build Geotech foundation contractor. This is a great opportunity for a student to learn the Design-Build aspect from an Engineering and Contracting perspective. They currently have registered Structural and Geotechnical Engineers on staff who could mentor an entry level Engineer. They work on complex projects all over the Bay Area and Sacramento region.
