Private versus Public Wastewater Career Options Webinar - When: Tuesday, Nov. 9th, 12 pm

What is a career like at a private wastewater consulting firm? What is a career like at a public wastewater utility? What is it like to switch between the two? If you have asked yourself any of these questions or other related questions recently then this webinar is for YOU!

CWEA's Students and Young Professional's committee proudly presents a lunchtime webinar featuring three speakers (read the flyer for details) who have all made the leap between private industry and public utilities. During this webinar, you will learn about these two career paths and what factors to consider when making your own career decisions. Feel free to bring your own questions for an open Q&A with the speakers at the end of the webinar. Register [here](#)
