## Civil Engineering Undergraduate Announcements – December 3, 2019

Happy Holidays! Good luck on finals everyone!

1. [Construction Internship](#)
2. [Inverse Modeling Class](#)
3. [Hiring Undergraduate Limnological Field Team](#)
4. [Orientation Leader Application](#)

### Construction Internship

Next Step Ministries has summer internship positions in the field of construction. This is a valuable, hands-on opportunity to lead community-focused building projects for hundreds of volunteers throughout nine week-long mission trips. Your students would be directly involved in each aspect of construction, including: on-site leadership, planning, estimating, scheduling, budgeting, and management.

This is not an office internship - your students will be overseeing energetic, professional construction worksite experiences for volunteers that greatly benefit the community, all while developing their individual skills. Please see the attached flyers for more information.

#### **Additional Information:**

Apply online: [Internship Application](#)

### Inverse Modeling Class

Laura Foglia is teaching the "inverse modelling" class, with a slightly different format this year. There will be two full days which are actually co-organized with the Groundwater Resources Association and will be open not only to students but to the state, consultants, etc. These will be January 13 and 14 in the Alumni Center. Information can be found here:

<https://www.grac.org/events/293/>

After this, the students will have three (or four) more afternoons where we will be doing more exercises and everybody will be working on a project. The methods presented are not limited to groundwater modelling but they are applicable to any type of model.

Jan 24 PES 3001

Jan 31 HH 124

Feb 7 HH 124

61083 is the CRN for registering.

Please feel free to contact Laura with any questions or doubts: [lfoglia@ucdavis.edu](mailto:lfoglia@ucdavis.edu)

## Hiring Undergraduate Limnological Field Team

A research team is recruiting undergraduates to help with fieldwork in Clear Lake, CA for an ongoing project. The position is a paid and part time. Please see the attached flyer for more details.

## Orientation Leader Application

The Orientation Team has recruited over 300 Orientation Leader applicants. Almost 150 students have accepted their offer of employment. They're  $\frac{1}{4}$  of the way to their goal of 600. If you are interested, please see their webpage: [orientation.ucdavis.edu](http://orientation.ucdavis.edu) This will connect you to the application as well as some brief updates about the components of the new UC Davis Orientation experience.
