### MANRRS STEM Mentorship Program

Minorities in Agriculture, Natural Resources, and Related Sciences (MANRRS) at UC Davis is currently seeking undergraduate students interested in participating in our first mentoring program.

**The MANRRS Mentoring Program aims to provide a supportive and beneficial mentor/mentee relationship for students of color in STEM at UC Davis.** Imposture syndrome, relatability, and lack of support are just a few of the barriers students of color may face while a student and/or professional in STEM . Their mentoring program aims to match folks based on indicated preferences that would foster a comfortable, safe and relatable environment for each mentor and mentee. They hope cultivating positive mentor/mentee relationships will foster the success of students within and beyond their time at UC Davis.

**What can this mentorship program do for you?**

- Support underrepresented students through shared experiences
- Provide insight and guidance from a graduate student at UC Davis
- Answer questions and provide support about graduate school
- Help find research opportunities and internships
- Provide academic support
- Build connections with other UC Davis undergraduates, graduate students, and/or faculty

\*The mentoring program is a quarter long commitment. Mentors/mentees have the option to continue throughout subsequent quarters if a good match.

**If you are interested in our program, please fill out this [form](#) in its entirety by September 18, 2020.**

Email us at [ucdavismanrrs@gmail.com](mailto:ucdavismanrrs@gmail.com) if you have any additional questions, comments, or concerns

**HEY!**

**IN SEARCH OF A MENTOR?**

**MANRRS is currently recruiting undergraduate students (especially minorities & underrepresented communities!) looking for mentors**

\*Our program will match you with a mentor that best suits your identity preferences

Interested? Contact [ucdavismanrrs@gmail.com](mailto:ucdavismanrrs@gmail.com)

## HDR Scholarship

HDR has two \$10,000 scholarships for students graduating by Spring 2021 who are going to be pursuing a graduate degree. They will be awarding the scholarships to graduate students interested in transportation engineering (majoring in civil engineering, structural engineering or geotechnical engineering). The scholarship would also include a paid internship within our transportation business group. Please see attached flyer and link below for more information.
