## INVOLVEMENT

---

**Applications for BIG's LIFT internship program are open!**

Application Due: **November 7, 2022 @ 11:59 PM**  
[Apply Here](#)

The Leadership & Innovation Fundamentals Training (LIFT) Program is a Winter-Spring internship in which students will receive training in project management and will work on improving an aspect of a program in the BioInnovation Group. Students will receive two BIM 192 internship units, and the expected time commitment is 2-4 hours per week.

### **Steinberg lab group is currently recruiting volunteers**

Steinberg lab group is currently recruiting volunteers to compare how consuming two different olive oils affects cardiovascular disease risk markers. Participants should be healthy non-smokers between the ages of 20-45, with no history of diabetes or other metabolic conditions and a body mass index (BMI) of > 29.9. They will be asked to complete an eligibility questionnaire over Zoom, as well as a screening visit and 4 study visits at the Ragle Human Nutrition Center on campus. Participation involves eating olive oil daily and giving blood and urine samples during the 4 study visits. Compensation of up to \$200 will be provided

If interested, reach out through [Study Pages](#) or directly to [tdiacova@ucdavis.edu](mailto:tdiacova@ucdavis.edu).

### **The Green Initiative Fund Fee Renewal Referendum**

The Green Initiative Fund (TGIF) is a student-fee-funded grant program hosted by UC Davis Sustainability. Over \$650,000 of TGIF funds have been granted to student-centered sustainability research, projects, and events at UC Davis. Since 2016, TGIF has funded over 100 sustainability projects implemented by students, faculty and staff from a wide variety of majors and departments. You may have seen some of the projects TGIF has funded on campus, such as the Tercero Resident Garden, The Sheepmowers, or the Freedges at the MU and Silo.

The TGIF student fee is up for renewal in the upcoming referendum November 7th to November 9th. For TGIF to continue existing, students need to vote yes in the referendum, reinstating a quarterly undergrad student fee starting at \$3.50. We have created a page on our website to help break down the bill language. We are asking you to support TGIF by sharing this information with your program participants, as we would greatly appreciate your help in educating your community on the opportunity to vote on TGIF's renewal. If passed, TGIF can continue to support students and UC Davis's broader sustainability goals.

### VAW Global Health Alliance at UC Davis internship opportunity

[Apply Here](#)

The UC Davis chapter of VAW Global Health Alliances is a travel internship opportunity for students to work hand-in-hand with local initiatives and leaders in different countries to provide local communities with improved access to medical, dental, and veterinary treatment along with medication, nutritional security, clean water, and health education.

This opportunity is open to students of all majors who may be interested in gaining hands-on experience in the health field while supporting healthcare systems worldwide. I have attached a flyer and the application below. Please let me know if you have any questions or concerns.

## SCHOLARSHIPS

---

### **ACEC California Scholarship**

[View Scholarship Here](#)

Application deadline: **January 27, 2023**

[View Application Flyer](#)

[View Application Here](#)

The American Council of Engineering Companies of California will award several scholarships totaling up to \$60,000 for the 2023-24 academic year. In addition, students who apply may also be awarded additional scholarship funds from our local chapters & ACEC National. Our scholarship program not only recognizes hard-working and dedicated students but serves as a valuable way for our members to identify the best and the brightest students about to enter California's increasingly competitive job market.
