

FALL 2022

Workshops

- | | |
|-----------------------------|--|
| Oct. 6 | Intro to the Unix Command Line
10 AM - 12 PM |
| Oct. 13 | Intro to Version Control with Git
10 AM - 12 PM |
| Oct. 20 | Reproducible Research for Teams with GitHub
10 AM - 12 PM |
| Oct. 25, 27,
& Nov. 1, 3 | Python Basics: Intro to Programming
for Researchers (4 sessions)
10 AM - 12 PM |

Office Hours

Wednesdays 1 - 2:30 PM

User Groups

Davis R-Users Group
Wednesdays 10 AM - 12 PM

Python-Users Group
Mondays 2 - 3 PM

Research Clusters

- Computational Pedagogy
- Data Feminism
- Digital Humanities
- Health Data Science
- Spatial Sciences

SUPPORTING INNOVATION, ACCELERATING DATA-DRIVEN DISCOVERY

DataLab is an interdisciplinary data science research service that leverages existing knowledge to tackle complex problems, develop computational tools and approaches to do so more effectively, and teach their implementation. Our workshops support researchers and learners (students, faculty, staff, etc.) from all departments across UC Davis.

UC Davis grad student or postdoc interested in a certification for your data science skills? Check out our micro-credentials on GradPathways!
