YOU CAN PASS YOUR FINALS!

I BELIEVE IN YOU!

INVOLVEMENT

What is Construction Management?

The **Construction Management Club** opens doors to new sets of design skills, networking with companies, critical team planning, and time management dexterity. Ten teams will travel to Sparks, Nevada, to compete against more than 15 universities in an effort to place in the top three for their specified competition.

Congratulations to our Sustainable Building Team, who won 2nd place in the ASC competition this year!

Applications for Project Managers for the Associate School of Construction (ASC) competition 2024 are open! We are seeking 9 project managers for Project Management, Sustainable Building, Integrated Project, Concrete Solutions, Preconstruction, Design Build, Mixed-Use, Commercial, and Heavy Civil. This is a great opportunity to network with professionals and companies and gain leadership experience!

DEADLINE: April 20th, 2023

ACADEMICS

Priority Registration for Student Parents and Caregivers

To support undergraduate students caring for children or adult family members, UC Davis has a process for these students to apply to receive priority registration. Priority registration enables students to receive an earlier Pass time for course registration. The program is intended to alleviate complications related to scheduling conflicts between parental and caregiving responsibilities and UC Davis classes and coursework.

For more details and to access the online application, go to the [Transfer and Reentry Center website](#).

DEADLINE: April 1st, 2023

CAREER

Trussell is hiring full-time engineers

Trussell is hiring full-time engineers (who graduated with master's) and summer interns (pursuing an undergrad or grad degree) at all three offices (Oakland, Pasadena, San Diego).

For more details and to access the online application, go to the visit the [Trussell](#) website.

[Intern posting](#)

Paid Internship Opportunity with the DCA

The Delta Conveyance Design and Construction Authority (DCA) is a Joint Powers Authority supporting the Department of Water Resources by designing and engineering a more efficient, resilient, sustainable State

Water Project that respects the Delta's uniqueness as a place and its communities. The program includes civil, structural, transportation, and geotechnical engineering experts. During their tasks, interns will attend meetings (the office in Downtown Sacramento), public presentations and have an opportunity for fieldwork. Interns will be able to see how engineering principles are applied, as well as learn and apply professional work skills. This internship is posted on Handshake, but word of mouth often generates the best candidates.
