# CAREER

## Bureau of Reclamation - San Joaquin River Restoration Program

Under close supervision by the Information Officer II, Public Records Administrator, in a learning capacity, the Student Assistant (SA) will assist with the High-Speed Rail Authority's (Authority) comprehensive media, public records, and communications programs.

### JOB DESCRIPTION & APPLICATION

FINAL FILING DATE: **JULY 16, 2023**

## Student Assistant Engineering and Architectural Sciences

The Asset Engineer Student Assistant (AESA) will work alongside professionals with extensive experience in international high-speed railway projects and work cross-functionally with other departments like Planning and Sustainability, Infrastructure Delivery, Engineering, and Environmental. This will be a hands-on experience that will introduce the AESA to the implementation of an Asset Management System for the operation and maintenance of the first high-speed rail system in the United States.

### JOB DESCRIPTION & APPLICATION

FINAL FILING DATE: **JULY 20, 2023.**

## Bureau of Reclamation - San Joaquin River Restoration Program

The San Joaquin River Restoration Program (SJRRP) is recruiting for two full-time Civil Engineer (Hydrologic) or Physical Scientist positions in Sacramento. Recent graduates or other students graduating soon would be ideal candidates.

### JOB DESCRIPTION & APPLICATION

FINAL FILING DATE: **JULY 21, 2023**
