- b. Civil Engineering Internship MCR Engineering

## 3. Scholarships

- a. REMINDER-DFI EDUCATIONAL TRUST MICHAEL CONDON  
SCHOLARSHIP-APPLICATION DEADLINE MAY 16
- 

## Get Involved on Campus

---

Whole Earth Festival this Weekend!!

The Whole Earth Festival is this weekend. For more information and the schedule check their Instagram page @wholeearthfestival

## UCUES communications

Now is the time to share about YOUR experiences as an Aggie--whether you are a freshman or senior, transfer student or 4-yr student, first-generation student or returning student. Please help us by completing the University of California Undergraduate Experience Survey (UCUES) through the UC [survey link](#) or the [Davis Web site](#). You can offer valuable information about your needs and concerns, as well as your academic and social experience as a UC Davis student.

Did you know? The 2018 UCUES revealed that about 47% of our fellow Davis undergraduate students had low or very low food security, as measured by federal standards. In 2020, that percentage was lower but still notable (39%). We believe that no student should ever have to miss a meal or go without basic necessities. To assist this crucial need, we want you to spend around 20 minutes from a laptop or tablet to take the 2022 UCUES and help us tackle campus-wide food insecurity.

**For each UCUES submitted between May 2–May 12, UC Davis Budget and Institutional Analysis will contribute \$1.00 to the Pantry.** With your support, we can grow our programs to keep students safe and food-secure. During the Pantry campaign, you will remain eligible for other UCUES gift card drawings. You can also start the UCUES and complete it at a later time before the Pantry campaign is over! (See details at [ucues.ucdavis.edu](https://ucues.ucdavis.edu))

Make your voice heard today. UCUES is your chance to help fellow students and tell the university about your experiences. Every voice counts!

## Student entrepreneurs pitch for cash prizes this Thursday evening

Come be inspired as UC Davis's best undergraduate student entrepreneurs pitch for cash prizes! Vote for your favorite to win the People's Choice Award!

Free pizza and the chance to win a \$50 Amazon gift card!

Thursday, May 5th at 6p in Scrub Oak

# Data Science Program for Women launch

Program details

The DS4A / Women program is designed to help female students and professionals develop into data-driven leaders of tomorrow. It is a free program that provides world-class technical training, professional development workshops, mentorship from senior leaders, competitive employment opportunities, and the opportunity to build your network of data-driven peers and leading organizations.

When: June - August (full schedule [here](#))

Where: Virtual

Who: Open to PhD and Master's students who are graduating from academia and looking to transition into industry. Relevant fields include Computer Science, Math, Applied Math, Engineering, Financial Engineering, Statistics, Quantitative Finance, Data Analytics, Data Science, among other quantitative fields.

Cost: Free, by application only

How to Apply: [Apply Here!](#)

Deadline: May 31, 2022. The deadline is in May 2022 but we encourage students to apply as early as possible as our Admissions Committee works on a rolling basis.

If you'd like to find out more information about the program or sign up for DS4A / Women program, please visit our [website](#). If you know someone else who might benefit from this event, feel free to pass this link and information along!

---

## Career / Internship

---

**Startup Career Fair:** May 6th 11:00 am - 2:00 pm, Virtual

[Register on Handshake](#)

This is a great opportunity for you to meet with innovative founders and leaders of regional startups to learn about their ventures and their internship, project and full-time employment opportunities. Virtual career fairs on Handshake give you the opportunity to meet recruiters and

other employees through video sessions. You'll learn more about employers hiring at UCDavis and connect with companies that will want to hire you.

## Civil Engineering Internship MCR Engineering

Company Name: MCR Engineering

Company Website: <https://www.mcreng.com/>

Job Application Site: <https://www.linkedin.com/jobs/view/3050539246> or via the Website

Location: Manteca, CA

### Job Description:

MCR Engineering is seeking engineering students for a summer internship. This will be a full-time summer position with the potential to continue on as a part-time or full-time position during the school year. Students will be assisting the engineering staff with project-related tasks but including:

data calculations

research analysis

design of plans and specifications

construction services including fieldwork

also anything they might not know or don't have much experience we would be more than happy to help them learn especially AutoCAD and Civil3D.
