INVOLVEMENT

Student Organization Survey

Club officers should fill out the student organization needs survey at bit.ly/asucd-rso-survey! The feedback you provide will be used to identify how ASUCD can better support student organizations. FIVE (5) clubs who take the survey will be randomly selected to win a \$100 CoHo gift card!

[View flyer here.](#)

ASUCD is Hiring!

ASUCD is the officially recognized student association at UC Davis. With an \$18M budget and over 2,000 student employees, ASUCD works to better our campus community, advocate for student needs, and provide services to the student body. Paid, stipend and volunteer positions are available! Apply at vacancy.ucdavis.edu.

PEER Student Committee Future of Research Series Seminar 2

The [PEER student committee](#) is hosting its second Research series. This seminar will focus on learnings from the recent earthquake that struck Türkiye and Syria on February 6, 2023. The seismic sequence caused widespread damage and destruction; sadly, more than 46,000 people have died. The seminar will be led by Dr. Robb Moss, Professor at California Polytechnic State University San Luis Obispo, who leads the GEER advanced reconnaissance team to assess on-site conditions in Türkiye and help organize subsequent teams to target specific hazards. Dr. Moss will present a broad overview of the events and the lessons that the earthquake has taught our earthquake engineering community.

When: March 15th, 2023

Time: 12:00 - 1:00 PM

Where: Zoom

[RSVP here.](#)

[Robb Moss | Seminar info](#)

10 attendees will receive an UberEats voucher for \$20. RSVP by 12th March to enter the pool.

INVOLVEMENT

USACE Sacramento District Career Fair

The U.S. Army Corps of Engineers, Sacramento District, is hosting a career fair at the Town and Country (Formerly The Grand), 1215 J Street, Sacramento, CA. They hope to see current students and alumni from the UC Davis College of Engineering.

WHEN: March 7th, 2023, 8:30 AM to 1:30 PM

[View flyer here.](#)

Engineering Ambassador Applications Deadline Extension

The 2023-2024 Engineering Ambassadors Program application deadline has been extended.

Our goal is to have representation from every department in 2023-2024. During the extended application period, priority consideration will be given to applicants whose majors are not represented in our current pool, including Biochemical Engineering, Computer Engineering, and Materials Science and Engineering.

Engineering Ambassadors represent the College of Engineering while developing leadership skills and furthering their personal and professional growth. Engineering Ambassadors promote the goals of the college and are involved with activities related to recruiting, retention, outreach and student success.

DEADLINE: March 13th, 2023 @ 12 PM

CAREER

Agility, innovation, excellence... Meet Mott MacDonald

Mott MacDonald are experts in engineering, management, and development services supporting multisector project work in over 150 countries. One of the largest employee-owned companies in the world, they pride themselves in their ability to deliver exceptional outcomes through the connected thinking of our 17,000+ talented consultants. Sustainability and innovation are at the heart of all of our sectors which, in North America, include Advisory, Built Environment, Energy, Transportation, and Water.

Join us to learn about the amazing opportunities available for students and new grads, including internship and employment options, as well as the awesome work we're doing in the community around you! Learn about their career paths, project work, and experiences from UC Davis alumni and local employees. Looking forward to seeing you there!

When: March 8th, 2023

Time: 6:15 - 8:30 PM

Where: Teaching Learning Complex room 3218

INTERNSHIPS

Paid Internship Opportunity with the USDA

Looking for a paid internship opportunity with the USDA Natural Resources Conservation Service, NRCS? This is a great summer internship for water resources or environmental engineering students, as NRCS will give interns hands-on experience. You'll learn about hydraulics, surveying, drafting, and contract writing. After successfully completing the program, interns will be allowed to convert to full employment after graduation.

APPLY BY: **March 28th, 2023**

Externship Program at Arup Opportunity for Bay Area College Students

Arup is hosting an Externship Program for traditionally underrepresented college students this spring. Arup is a global engineering and design firm based in our San Francisco Office. The Externship Program is a 2-day program that will occur on Thursday, April 13th, and Friday, April 14th, as a hybrid virtual and in-person program at our office in Downtown San Francisco. Undergraduate students interested in a career in the built environment, particularly through an engineering, economic, and urban planning lens, would find this program particularly beneficial.

INTERNSHIPS

GrizzlyCorps Fellowship: 2023-2024

GrizzlyCorps is an AmeriCorps program launched by the Center for Law, Energy & the Environment at Berkeley Law. GrizzlyCorps is a national service program focused on building community resilience by responding to climate change and providing meaningful community engagement and career-building experiences for recent college graduates. GrizzlyCorps currently focuses on two areas of climate change action and community resilience: fire and forestry resilience; and regenerative agri-food systems.
