Career/ Internship

Walter P Moore is Hiring - Structural

The banner features the Walter P Moore logo (a geometric pattern of triangles) and the text "walter p moore". The main headline reads "We're looking for MooreTalent!". Below this, two job openings are listed: "Structural Engineering Intern" in Los Angeles, CA, and "Structural Engineering Entry Level Position" in Los Angeles, CA / San Diego, CA. A call to action at the bottom says "Help us build inspiring careers! Learn more at careers.walterpmoore.com". The background shows a large, modern stadium at dusk. On the right side, there is a dark vertical bar with three QR codes and their corresponding labels: "West Coast Projects", "Firm Overview", and "Hybrid Remote Firm".

These are the positions that can be found on their career portal:

Graduate Engineer – Structural	2022-2323
Graduate Engineer – Diagnostics	2022-2410
Structural Intern	2022-2412
Diagnostics Intern	2022-2411

More Information is attached to this email

Scholarships

The Obama Voyager Scholarship

The [Obama Voyager Scholarship](#) is a collaboration between Barack and Michelle Obama and Airbnb's Brian Chesky. It is designed for rising juniors (including incoming transfers) with GPA's of 3.0+ that intend to enter careers in public service. Applicants can be U.S. citizens, permanent residents, or granted DACA. There will be 100 scholarship recipients who will receive the following:

- Financial aid up to \$50,000: Students will receive up to \$25,000 per year in “last dollar” financial aid to cover remaining tuition and/or living costs for their junior and senior years of college. This last-dollar approach builds on other financial aid programs and helps ensure the students can pursue a career in public service and are not constrained by crushing student debt.
- Summer Voyage: President Obama and Brian have different backgrounds, but share the fundamental belief and lived experience that exposure to new places and experiences broaden our horizons and redefine what we believe is possible. With a budget of \$10,000, students will design their own summer voyage between their junior and senior year of college. The experience will allow students to pursue internships or mentorship opportunities anywhere in the world that will broaden their horizons and prepare them for careers in public service. Students will also be able to stay in homes on Airbnb using credits provided by Airbnb.
- 10-year travel stipend: After graduation, Airbnb will provide the students with a \$2,000 travel credit every year for 10 years, totaling \$20,000. This will allow students to continue to broaden their horizons and forge new connections throughout their public service careers.
- Fall Summit: Voyagers will be invited to an annual Fall Summit. This fall, the summit will include a meeting with President Obama, Brian Chesky, and other leaders. They will also get access to a network of other Voyagers and alumni with whom they can connect with at the summit and beyond.
- A network of leaders: Throughout the program, students will be invited to an ongoing speaker series, giving them access to a network of leaders. This network of leaders will expose them to new areas of service and innovations happening in their fields. After graduation, they will join the Obama Foundation’s global community, providing them with Foundation resources and programming.
- Preference may be given to applicants with no or limited prior engagement with other leadership programs in their undergraduate experience. Students must demonstrate financial need to be considered for the program.

Applications are due **June 14th**
